4 HOURS OF DEVELOP APPROVED TRAINING

Morning Speaker: Stacy Boysen

The Middle Circle: Creating Trauma-Sensitive Environments

Gain insight into adverse childhood experiences (ACEs) while developing an understanding of how trauma impacts a child's brain and behavior. Explore the role of the "middle circle" in promoting attachment, supporting children's resiliency, and connecting families to critical resources. Develop strategies for creating a trauma-sensitive early childhood environment where children thrive.

Afternoon Speaker: Kristen Wheeler-Highland

Small Changes, Big Results: Inspiring Ourselves to (Re) Ignite Our Passion

Ignite or reignite passion for your job. "Your work is going to fill a large part of your life, and the only way to be truly satisfied is to do what you believe is great work. And the only way to do great work is to love what you do. If you haven't found it yet, keep looking. Don't settle."-Steve Jobs. Most self-help books offer the advice "change is most lasting when it is built on small positive habits". Examine key insights from outstanding books, and what tweaks can be made today to ignite or reignite their passion (in work and life)! Experiment with a variety of tools used to create a personal action plan. Leave with several hands-on tools to use.
